M9

TECHNOLOGY AT YOUR SERVICE

M9 two wheeled tractor is extremely versatile, as testified by the numerous ways in which it can be used with the most different sorts of implement for every type of job. Thanks to its versatility and technical specifications, M9 allows you to quickly change the implements and cut grass, or sweep lawns and nurseries with use of a single driving unit. Gasoline or diesel engine Stage V, handlebars locking and releasing lever easy to use are two of the most appreciated features. The handlebars can be adjusted at 9 height positions and intervals of 18°, all conveniently selected from the operator's position.
